Buyer's Acknowledgement

Buyer(s) signing of this contract, acknowledges that he/she is aware that there are many health problems that are not uncommon to the Pug breed, Such as stenoic nares (narrow nasal passages), elongated soft palate, Luxating patellas, Leg perthes, encephalitis, pigmentary keratitis, demodectic mange, allergies etc... Some of these potential health problems are known to be genetic, some are believed to have some genetic predisposition, and the cause of others is unknown or is random in occurrence. Buyer further understands that the technology does not exist to predetermine the genetic outcome of any breeding as respects to health, conformation, temperament or performance ability.

Sellers have, to the best of their knowledge and ability, made a good faith effort to determine that the Puppy's sire and dam is free of inherited genetic disease. Buyer understands and acknowledges that Sellers can NOT predetermine the outcome of the breeding and therefore can make NO assurances that the Puppy will be free of inherited genetic or other disease, nor that the Puppy will meet Buyer's expectations as respects to conformation, performance, or temperament.

If puppy is purchased for Breeding or showing, in the event that the dog or bitch is not of show or breeding quality due to genetic/hereditary problems a replacement puppy will be offered upon the return of the original puppy or when one is available. If Buyer wishes to keep original puppy and have them spay/neutered, then sellers agrees to refund the differences in pet and breed quality price upon proof of spay/neutere. We do not provide any guarantees against Demodectic Mange, because all dogs carry this mite, and when the body is under stress (due to puberty, travel, change in environment, etc..) this can surface on the skin, it is treatable and rarely reoccurs.

Our Puppies are fed high quality puppy food and are started on **NuVet Plus Vitamins**. Because of the variety and quality of dog foods available (which some canine illness are NOT covered by vaccination), and the environmental issues and differences within each household and yard that can be cause of so many allergies, coat and skin problems, seller highly recommends buyer to continue to give puppy 1 NuVet Plus wafer each day which is a powerful antioxidant that gives a tremendous boost to the immune system to prevent skin and coat problems and creates a defense against over fifty major diseases including hip and elbow displasia, and extending the life span of your dog.

This nutritional supplement is only available through breeder or holistic veterinarian recommendation. The **order line is 1-800-474-7044**. Your order code is **11694**. (There is also a direct link on our puppy page to Nuvet's website to make ordering your supplement easy and convenient.)
